

Astronomy Night

At the Gaithersburg Latitude Observatory

Friday, September 16, 6 - 8:30 pm

100 DeSillum Ave., Gaithersburg, MD

Join us for a special Astronomy Night to explore the historic Gaithersburg Latitude Observatory, create your own planetarium, learn about telescopes, and observe the Moon through the Observatory's three telescopes.

Ages: 6-10 (perfect for Cub Scouts, Brownies and Home School students). One adult chaperone required for every six children.

Cost: \$3 per child; reservations must be made as a group. No cost for chaperones. Payment taken at gate.

Bring: Each child should have a pen/pencil and a clipboard, plus a compass for the group. No flashlights please.

Reservations Required: When you reserve you will be given a start time for your group. If the weather does not cooperate, registered groups will be contacted with a make up date.

For Reservations and Information: Complete this registration form and email to klottes@gaitersburgmd.gov or mail to Gaithersburg Community Museum, 9 S. Summit Ave., Gaithersburg, MD 20877. Questions? Call Karen Lottes, 301-258-6160.
